Dear Senator Vanwoerkom-I am writing to strongly urge you to oppose Senate Bills 501-504 which would undermine regulation of CAFOs. CAFOs are a bad idea and as a citizen, and resident of the State of Michigan, I intend to do all that I can to expose what these really are. As a leader of the Agricultural Committee, I ask that you deeply consider the environmental impact to all of us, as well as asking yourself if this is truly how you think we should be treating the food that we will eat. You don't have to be a scientist to answer those questions. Please consider these issues, and lead with common sense and decency-attributes that we are all longing for today. Thank you. Kathy Moloney
